REPORT OF THE INTERMEDIATE EDUCATION BOARD FOR IRELAND FOR THE YEAR 1911.

TO HIS EXCELLENCY JOHN CAMPBELL,
EARL OF ABERDEEN,

LORD LIEUTENANT-GENERAL AND GENERAL GOVERNOR OF IRELAND

MAY IT PLEASE YOUR EXCELLENCY,

We, the Commissioners of Intermediate Education (Ireland), submit to your Excellency this our Thirty-third Report.

The number of students who gave notice of their intention to present themselves for examination in 1911 was :—

Boys	Girls	Total
8,731	4,537	13,268

being an increase of 20, or 0·2 per cent., in the case of boys, and an increase of 156, or 3·6 per cent., in the case of girls; and a total increase of 176, or 1·3 per cent., on the corresponding numbers in 1910; and a total increase of 6·6 per cent., on the corresponding numbers in 1909.

In the last ten years the numbers were respectively as follows :—

Year	Boys	Girls	Total
1902	6,545	2,509	9,054
1903	6,461	2,663	9,564
1904	6,717	2,449	9,166
1905	7,443	2,845	10,288
1906	8,319	3,285	11,704
1907	8,708	3,887	12,595
1908	8,253	3,906	12,159
1909	8,350	4,101	12,451
1910	8,711	4,381	13,092
1911	8,731	4,537	13,268

See Table.

The number of students who presented themselves for examination in 1911 was :—

Boys	Girls	Total
7,963	4,142	12,105

being a decrease of 4, or 0·05 per cent., in the case of boys, and an increase of 209, or 5·3 per cent., in the case of girls, and a total increase of 205, or 1·7 per cent, on the corresponding numbers in 1910.

In the last ten years the numbers were respectively as follows :—

Year	Boys	Girls	Total
1902	6,087	2,292	8,379
1903	5,087	1,922	7,909
1904	6,276	2,254	8,530
1905	7,018	2,659	9,677
1906	7,790	3,177	10,967
1907	8,165	3,656	11,821
1908	7,736	3,647	11,383
1909	7,676	3,656	11,332
1910	7,967	3,933	11,900
1911	7,963	4,142	12,105

Appendix I.

The examinations for 1911, which commenced on 16th June, and extended over thirteen days, were held at 318 centres, in 132 different localities.

The following Table shows the distribution of Centres between the Four Provinces :—

Centres	Leinster	Ulster	Munster	Connacht	Totals
Centres for Boys ..	78	26	59	12	175
Centres for Girls ..	35	20	26	6	87
Joint Centres for Boys and Girls ..	12	24	17	3	56
Total	125	70	102	21	318

Two hundred and ten gentlemen and one hundred and ten ladies were employed as Centre Superintendents, being an average of one Superintendent to every 38 students examined.

See Table III.

The number of students who passed the Examinations in 1911 was :—

Boys	Girls	Total
4,290	2,286	6,576

In the last ten years the numbers were respectively as follows :—

Year	Boys	Girls	Total
1902	3,695	1,243	4,938
1903	3,746	1,164	4,910
1904	3,934	1,464	5,398
1905	4,942	1,723	6,665
1906	4,906	2,000	6,906
1907	4,678	2,116	6,794
1908	4,640	2,332	6,972
1909	4,260	2,011	6,271
1910	4,278	2,116	6,394
1911	4,290	2,286	6,576

The percentage of those examined who passed in 1911 was :—

Boys	Girls	Boys & Girls
53.9	55.2	54.3

The percentages in the last ten years were respectively as follows :—

Year	Boys	Girls	Boys & Girls
1902	60.7	54.2	58.9
1903	62.6	60.5	62.1
1904	62.7	65.	63.3
1905	70.4	64.8	68.9
1906	63.	63.5	63.
1907	57.3	57.9	57.5
1908	59.9	63.9	61.2
1909	55.5	55.	55.3
1910	53.7	53.8	53.7
1911	53.9	55.2	54.3

The percentages of students examined in the different grades who passed were, compared with the percentages in 1910, as follows :—

GRADE	Boys		Girls	
	1911	1910	1911	1910
Preparatory	54.5	54.3	62.5	53.1

The number of students to whom Exhibitions were awarded in See Tables the Senior, Middle, and Junior Grades was :— V. and VI.

Boys, 193 ; Girls, 113 ; Total, 306.

The number of students to whom prizes were awarded, under Rule See Table 40, was :— VII.

Boys, 311 ; Girls, 88 ; Total, 399.

The number of students to whom prizes were awarded for Compo- See Table sition under Rule 55, was :— VIII.

Boys, 110 ; Girls, 69 ; Total, 179.

Eighty-six Medals (bronze) were awarded to Boys and to Girls See Table for excellence in special subjects. IX.

The values of the Burke Memorial Prizes awarded in 1911 were :— Burke Memorial Prizes.

Boys—	£ s. d.	Girls—
First Prize ..	12 5 8	(None awarded).
Second Prize, ..	7 13 7	

The amount of the School Grant paid to managers of schools on See account of the Examinations in 1911, was £46,461 13s. 3d. Appendix II.

The number of schools participating in the Grant in 1911 was 329 ; mixed schools of boys and girls, each of which was formerly counted as two schools, are now regarded as one school.

The following Table shows the distribution of the School Grant between the Four Provinces, and the number of schools in each Province, to the managers of which the School Grant was paid. Certain items earned in respect of the year 1911, but paid subsequently to 31st December are included :—

PROVINCES	Total amount of School Grant	No. of Schools			TOTAL
		Boys	Girls	Mixed Schools	
LEINSTER ..	£ s. d.				
	18,313 8 11	65	53	3	123
ULSTER ..	12,392 13 4	29	40	21	90

CONRAUGHTY ..	2,970 13 8	14	5	2	21
Gross Total ..	46,461 13 3	162	129	38	329

A sum of £1,448 16s. 11d. was allocated in bonuses to schools for See choirs and orchestras which were favourably reported on by the Appendix II. examiners in Practical Music, and which fulfilled the conditions laid down for the examination in that subject. This examination was held for the first time in 1904.

A further sum of £125 was awarded as prizes at a special competition for choirs and orchestras held in Dublin, 29th April, 1911.

See Appendix III The total grant in the present year is £46,461 13s. 3d., being calculated on the basis of the following scale:—

For each Pass:—

				£	s.	d.
Preparatory Grade	3	1 4
Junior	do.	6	2 8
Middle	do.	9	4 0
Senior	do.	13	16 0

For each Pass with Honours, Rule 37:—

Junior Grade	9	4 0
Middle	do.	13	16 0
Senior	do.	20	14 0

The scale for 1910 was as follows:—

For each Pass:—

Preparatory Grade	3	4 4
Junior	do.	6	8 8
Middle	do.	9	13 0
Senior	do.	14	9 6

For each Pass with Honours, Rule 37:—

Junior Grade	9	13 0
Middle	do.	14	9 6
Senior	do.	21	14 3

FINANCE.

As stated in the Report for 1910, the amount received by the Board for that year as its share of the Local Taxation (Customs and Excise) Duties was £16,998 14s. 6d. only. A further sum of £29,568 0s. 11d. was paid to the Board in April, 1911, under Section 17 (2) of the Revenue Act, 1911, to make up the amount by which the proceeds of the Customs and Excise Duties paid to the Board in 1910 fell short of those in 1909, the total amount thus received in respect of the year 1910 being £46,566 15s. 5d. A similar sum (£46,566 15s. 5d.) has been received for 1911, and it is apparent that the Board's share of the Local Taxation (Ireland) Account has been permanently fixed at that amount until Parliament shall otherwise determine.

While there is an advantage in being able to calculate on a fixed yearly income from this source, it is to be regretted that the amount should have been calculated on the produce of the year 1909, which was the smallest for the past decade. The average for the 10 years, 1900-09, being £55,293, the Board has accordingly suffered an average annual loss of income to the extent of £8,727.

Under the circumstances it was not considered advisable to make a further call on the Capital Reserve Fund, and accordingly the amounts allocated to Normal School Grant and Bonus for Choirs and Orchestras were the same as for 1910, viz:—£46,700 and £1,500, respectively.

SCHOLARSHIPS.

On May 23rd, 1911, the Chief Secretary, speaking in the House of Commons on the claims of Secondary education in Ireland, stated that it was his desire to introduce a system of scholarships

whereby suitable pupils might pass from the primary schools into the secondary schools, and ultimately to the University, and also to raise the status of the Secondary schools, which, in his opinion, could only be done by raising the present status of the teachers in these schools.

He said : "The Chancellor of the Exchequer is quite willing this year to set apart a sum of money for Intermediate Education, to be dealt with as the Board of Intermediate Education and those interested and concerned with Secondary schools in Ireland determine."

Out of this money scholarships were first to be provided, and if more money was advanced than was necessary for this purpose, the residue was to be used to raise the status of Secondary teachers.

At the same time, he held out hopes that Ireland would receive from Imperial Funds a sum proportional to the £750,000 per annum which is paid from those funds to Secondary schools in England, Scotland, and Wales, as "capitation fees."

By a letter from the Under-Secretary of 1st June, 1911, the Board was asked to draw up, in co-operation with the Board of National Education, a Scholarship scheme on the lines indicated above. Accordingly, after conferences between the representatives of the Intermediate Education Board and those of the National Board and of the teaching profession, a scheme was drawn up and sent to the Chief Secretary. This scheme was based on the supposition that a sum of £10,000 per annum would be provided for Scholarships. At the same time a memorandum was sent in, pointing out that the Board understood that it was the desire of the Chief Secretary that the scheme should be drawn up solely for the purpose of completing the University scheme, and that it had been drawn up accordingly. The Board did not approve of this limitation, and it suggested the extension of the scheme so as to provide increased facilities for agricultural and technical training, and to allow the poor man's son to take advantage of these facilities, either in advanced primary, or at trade preparatory, technical, or agricultural schools.

The Lords of the Treasury refused to sanction the scheme thus put forward.

ASSISTANT TEACHERS.

With regard to the grant of funds for improving the position of assistant masters in Secondary schools, and of a grant equivalent to the £750,000 provided from Imperial funds for Secondary education in Great Britain, the Board has received no communication from the Government.

ABOLITION OF THE EXAMINATION IN PREPARATORY GRADE.

When preparing the rules for 1912, the Board had under consideration the question of abolishing the examination for the Preparatory Grade. It was felt that the present system imposed too heavy a strain on children of an age too young for a searching examination.

Legal opinion was obtained to the effect that it was within the powers of the Board to abolish the examination in this Grade, if it so desired. It was, however, considered advisable to defer

action until the matter could be further considered, and until the representatives of the schools could be consulted.

The matter was again taken up when the Board was preparing the Rules for 1913, and after discussion with the representatives of the schools it was decided to abolish this examination. The money which has hitherto been distributed among the schools in respect of the Preparatory Grade will henceforth be distributed in respect of the three higher grades. Furthermore, there will be an additional sum available for School Grant in consequence of the saving effected in the cost of the examination through the abolition of this Grade.

It was the desire of the Board to pay a bonus school grant, depending on the reports of the inspectors on the efficiency of the school as a whole. It was found, however, that under the existing limitations on the powers of the Board there was no means of giving effect to this desire.

For the difficulty in the way of carrying out the desire of the Board expressed in the report for 1908,—viz., the substitution in the future of the test of inspection for the general pass examination, so that the school grant might be distributed partly on the results of inspection and partly on the results of honour examinations—the true solution would be the introduction by the Government of a short amending Act.

The Board has laid before the Chief Secretary its views as to the desirability of passing such an Act.

ABOLITION OF SPECIAL PAPERS.

An important change made in 1911, to come into operation in 1912, was the abolition of the "Special Papers," papers of a more advanced type set in addition to the Honour papers, and open to all students presenting themselves for Honours. It was held that the advantages to be gained from these papers were not sufficient to counterbalance the extreme strain they imposed on the candidates, besides the expense of setting and correcting them, which amounted to about £1,000 yearly.

The schools had objected to them, and the Board's Inspectors bore out this objection.

INSPECTION.

The general remarks made by the Inspectors, as well as the criticisms on the work of particular schools, suggest a steady and regular development in the methods of teaching since the introduction of inspection. This development would undoubtedly be still more marked if a system were brought into force which would allow elasticity in the curriculum, give the teachers more freedom in developing their own special powers, allow the schools to decide in what sequence their pupils should attack new subjects, and at what age they are ripe either for new subjects, or for more advanced instruction in them. At present freedom in these important matters is clearly hampered, because subjects have to be included in the curriculum of a class, not because the students are ready for them, but because the exigencies of the written examination require them. Students who enter an Intermediate school at a late age have often to be placed in a class which suits their age and not their knowledge and capacities.

Notwithstanding the cramping influence of the present system of examinations forced on the Board by the Acts of Parliament many improvements have been effected by the readiness of the teachers to adopt the suggestions of the Inspectors. In Classics, pronunciation has improved; composition is treated on better lines and exercises are more carefully corrected; better text-books are used; the practice of reading Latin and Greek aloud before translation is more general, and repetition, which had almost disappeared, is being re-introduced. In English, Literature and History receive broader treatment than was formerly the case when the teaching in many schools shewed a strong tendency to be confined within narrow limits. The facts of History are not at present treated to such an extent as isolated phenomena, and the teaching often emphasizes the connection between cause and effect. In Modern Languages more attention is paid to pronunciation and to the oral side of the work, of which the written examination was unable to take any account. In some schools a very high standard is attained in this respect. In Mathematics, modern methods and text books have been adopted in many schools. There has been a marked improvement in the enunciation and clearness of utterance of the students. When a written examination is the sole criterion of the efficiency of a school, elocution becomes unfortunately of very secondary importance. The general brightness and intelligence now displayed in answering the questions of the Inspectors form a marked contrast to the shyness and diffidence which were so common at the beginning of the inspection system.

It is hoped that the proposed new regulations abolishing the public written examination for the Preparatory Grade will prove beneficial. The schools will now have practical autonomy in the lower classes, they will have the power of framing their own syllabus, and consequently the curriculum of these classes can be framed or modified by each school to suit its necessities and aims. Any school that wishes to do so can submit its examination papers or marks to the Inspectors. The teacher will now have a voice in the curriculum of the lower classes of the school, and will not merely have to follow rigid lines, which may be suitable for some schools and not for others, but will co-operate with the Inspectors in raising the standard of education.

The system by which the grant to the schools is paid on the results of the yearly examinations, as we have often pointed out, cannot be said to be educationally sound. While it is admitted that written examinations produce a good effect in many cases as an incentive to work and as a measure of the relative attainments of students in different schools, and test the abilities of the pupils to answer written questions, yet they cannot be regarded by themselves as a sound criterion for judging any individual school as a whole, and they often have a bad effect on the minds of pupils and teachers. As regards pupils, they set a premium on the power of mere reproduction of other people's ideas and other people's methods of presentation, and divert energy from the creative process; they reward evanescent forms of knowledge, and often do not favour the best type of mind; they often give an undue advantage to

those whose possession of the examination "knack" may conceal the slenderness of their attainments; they often induce students, in their preparation for an examination, to aim rather at absorbing information imparted to them by the teacher, than at forming an independent judgment on their subjects of study; they often give a false perspective to school life and encourage students to cultivate merely an examination frame of mind, which is incompatible with the true spirit of education. The teacher, on the other hand, whose methods are sound and good receives no recognition if he has bad material to work on; when he has good material, if he does not follow the rigid lines of the examination syllabus, he may find that his students are not so successful as those who have not been so soundly taught, but who have been trained to adapt themselves to the exigencies of a written examination. Consequently his freedom in the treatment of a subject is limited, and he cannot give full play to his individuality. He often takes upon himself work which would have been better left to the largely unaided efforts of his pupils, by causing him to impart information in too digested a form, or by selecting for them groups of facts which pupils should collect for themselves. He often sets too high a value upon the type of mental development which leads to success in examination, while his attention is diverted from those points of education which should play an important part in school life, though they may not be rewarded by the process of written examinations.

As written examinations alone cannot properly and fully test the efficiency of any one school or the teaching capacities of the staff, it is clear that they cannot be regarded as a true test of the relative efficiency of schools, especially when the schools, as is the case in Ireland, are of such different types, with varying objects and aims.

The present system attempts to force all schools into the same mould, by making all submit to the same examinations, and forcing them into competition with one another—a competition which is naturally injurious to the best interests of secondary education. Each school should be allowed to develop on its own lines. The curriculum should be framed and the methods of teaching should be directed to suiting the aims and objects of the school, not to securing as many successes as possible in the examination. At present, as most of the Irish schools have little or no endowment, they are practically forced to rely, to a large extent, on the successes of their pupils in examinations.

A capitation grant system, bringing inspection and examination into more intimate and organic connection, which would remove the evils inherent in the present system, and at the same time provide a certain number of examinations to act as an incentive and objective for the students, would be the best solution of the difficulties presented by Irish secondary education.

The references to the courtesy which the Inspectors received from the schools, to the readiness which was shown in carrying out their suggestions, and to the earnestness and energy of the teachers, are again welcome features of the reports.

APPENDIX IV.

THE BURKE MEMORIAL PRIZES.

A sum of money, subscribed in memory of the late THOMAS HENRY BURKE, Esq., Under Secretary to the Lord Lieutenant, was transferred by the Burke Memorial Committee, on 18th March, 1884, to the Intermediate Education Board for Ireland, who undertook to administer in accordance with the following Rules—(the sum funded is £1,222 18s. 11d. Consols) :—

I. The annual income from the fund shall be applied in paying three Prizes, one of £16, one of £10, and a second of £10; any surplus or deficiency to be apportioned in the same ratio. If, in the opinion of the Commissioners, sufficient merit be not shown by the Candidates competing to justify the award of any or either of the Prizes, the amount of such Prize may be, at the discretion of the Board, withheld and added to the principal.

II. No student shall be qualified to receive these Prizes except the children of persons who are, or have been, in receipt of salary or pension in Ireland, paid out of money derived from Parliamentary Grants, Rates or Taxes, other than members of the Naval or Military Services not being also in Civil employment.

III. The Prizes shall be awarded as follows :—that of £16 to the Boy whom, at the annual Examination in the Junior Grade among Male Candidates qualified in the manner expressed in the next preceding Rule, the Board shall adjudge to have obtained the highest aggregate of Honour marks in the subjects in which he presented himself for examination; One Prize of £10 to the Boy whom, in the same Grade at such Examination, the Board shall adjudge to have obtained the next highest aggregate of Honour marks in the subjects in which he presented himself for examination; and the other of £10 to the Girl whom, at such Examination in the same Grade, among Female Candidates in the manner aforesaid, the Board shall adjudge to have obtained the highest aggregate of Honour marks in the subjects in which she presented herself for examination.

IV. The decision of the Board shall be final and decisive in determining whether the Candidates fulfil the conditions of the third Rule.

V. The Board may deduct all expenses connected with the trust from the yearly income.
